DESCRIPTION

NZI Zeta Making a ton was English slang to describe who was riding at a speed of 100 mph or more. Zeta is a small, homologated, lightweight helmet for those who make motorcycling a lifestyle. A Nugema® thermoplastic helmet. Fair protection and maximum comfort renewed. The extreme lightness of this model together with its studied ergonomics favor its use. It occupies little space, it is easy to remove and put on, it does not give a feeling of overwhelm. Light weight, great comfort. Nugema® shell, thermoplastic alloy with greater impact

resistance and durability. This mixture shows a synergistic effect resulting from excellent impact resistance. Nugema® thermoplastic has an excellent hardness at any temperature, which makes it ideal for a product that will face a wide range of temperatures during its useful life. Superior protection for your head. The shell has a wide front opening that guarantees a great viewing angle. A strip at the back ensures the fixing of the optional glasses. Sizes XS / S / M / L / XL Weight: 900+-50gr.
