DESCRIPTION

Indian FTR 1200 Indian FTR 1200 AN AMERICAN ORIGINAL Chiseled and muscular, FTR is the essence of what a motorcycle should look like - a brutish V-twin engine in plain sight, tightly surrounded by an elegant looking trellis frame. With roots in our American flat track racing heritage and inspired by our dominant Indian Motorcycle Wrecking Crew, we created FTR to equally dominate on the street. It not only rewrites the rules, it torches the rulebook. And shows that modern, American performance isn't a contradiction or at odds with incredible style. POISED FOR THRILLS The character of a high-revving, liquid-cooled American V-twin is unique, and at the heart of what makes FTR remarkable. With 120hp and 87 ft-lbs of torque, the 1203cc can be completely civilized around town, or grab a handful of throttle and its full hooligan personality can't be hidden. CHAMPIONSHIP AESTHETIC FOR THE STREET Originally designed after our dominant, championship winning FTR 750 flat track racer, the new FTR is fully optimized for ultimate street performance, where real riders dominate. Lightweight 17-inch cast wheels front and back are easily flickable and wear super sticky Metzeler® Sportec rubber that glue you to the road. COMPONENTS WORTHY OF CONFIDENCE FTR features the best of the best, giving you the ultimate stamp of approval to go fast. Beefy 28mm alloy handlebar looks the business. Fully adjustable 43mm upside down front fork and rear shock keep you planted, while massive Brembo® 4-piston mono block calipers grab dual 320mm rotors and are specifically tuned for incredible control and braking power.
